People's lives we have changed.

"I was a devout rational who had no faith on astrology. My scientific background forbade me from believing in these forces, but the sudden.. paranormal activities in my own family and certain unexplainable stuff before my own eyes led me to believe in the existence of such aspects."

- Marie, Scarborough

"I found the astrology reading very helpful in regards to my phases of my life, and it gave me guidance. Thank you."

- John, Toronto

"Pandit Krishna helped in a time where I had nothing else going for me. I was very depressed and down in the dumps with my addiction problems. He helped me with rituals and prayers that helped me get rid of my addictions and have a better outlook on life. This has helped my family situation immensely and all my friends seem to want to hang out more because I have become more stable. Thank you Pandit Krishna!"
